

# **Berkowitz in Prison; More Tests Are Due**

David R. Berkowitz was taken to the State Correctional Facility at Ossining, N.Y., yesterday to start serving 25 years to life for the "Son of Sam" murders.

He arrived shortly after 6 A.M., was photographed, fingerprinted and given the official green uniform for state prisoners. An hour and a half later he was taken to the maximum-security Clinton Correctional Facility at Dannemora, N.Y., for classification.

Ruby Ryles, an official of the state's Correction Department, said that at Clinton Mr. Berkowitz would be given new medical and psychiatric examinations and that if the examinations showed a continuing need for psychiatric care, a determination would be made to surrender him to the State Department of Mental Hygiene.

Meanwhile, Miss Ryles said, Mr. Berkowitz is being held in the psychiatric evaluation unit at Clinton under 24-hour-a-day observation. She said he would probably remain at Clinton for two or three weeks.
